

AMENDMENTS TO THE CLAIMS

- 1. (Currently amended)** A dietary supplement mixture having neuroprotective activity which comprises a peptide formulation, comprising at least one of a peptide having consisting of the amino acid sequence of NMVPFPR (SEQ ID NO: 1) or a peptide having consisting of the amino acid sequence of ASAFAQGIGSTHWVYDGVGNS (SEQ ID NO: 2).
- 2. (Previously presented)** The dietary supplement mixture according to claim 1 further comprising additional amino acids.
- 3. (Previously presented)** The dietary supplement mixture according to claim 1 comprising further peptides with a molecular weight less than 10 kDa.
- 4. (Previously presented)** The dietary supplement mixture according to claim 1 comprising trace elements and/or mineral substances and/or vitamins and/or caffeine and/or taurine and/or fatty acids and/or phospholipids, and/or phosphatidylserines and/or plant extracts.
- 5. (Previously presented)** The dietary supplement mixture according to claim 1 further comprising acceptable additives and/or excipients and/or fillers and/or colouring substances and/or flavouring substances.
- 6. (Previously presented)** An oral dosage form comprising a dietary supplement mixture according to claim 1 and acceptable additives and/or excipients and/or fillers and/or colouring substances and/or flavouring substances and/or solvents.

7. **(Currently amended)** The oral dosage form comprising a dietary supplement mixture according to claim † 6, comprising wherein the total peptide concentration is 2 - 20 wt% peptides.

8. **(Previously presented)** The oral dosage form according to claim 7 further comprising 10 - 30 wt% amino acids.

9. **(Withdrawn - Currently amended)** A method for preventing, ameliorating or improving of treating age-associated memory impairment and/or age-associated cognitive decline and/or benign senescent forgetfulness, which comprises administering to a patient in need thereof an effective amount of the dietary supplement mixture according to claim 1.

10-14. (Cancelled)

15. **(Withdrawn - Currently amended)** A method to preserve/support of supporting healthy mental function during the aging processes, which comprises administering to a patient in need thereof an effective amount of the dietary supplement mixture according to claim 1.
